### **DETAILED ACTION**

Claims 35-41 and 69-74 are pending in the instant application.

#### **Amendments**

The amendment filed on November 7, 2007 has been acknowledged and has been entered into the application file.

#### Election/Restrictions

Applicant's election without traverse of Group I in the reply filed on November 7, 2007 is acknowledged. New claims 69-74 are grouped with Group I and are examined with claims 35-41 in this action.

# Priority

The claim to priority as a 371 filing of PCT/EP03/10171 filed on September 12, 2003, which claims priority to UK 0221312.2 filed on September 13, 2002 is acknowledged in the instant application.

### Information Disclosure Statement

The Information Disclosure Statement filed on March 22, 2006 has been considered with the exception of the lined out references as no copy of those references has been provided to the office. Applicant is reminded that if the references are not specifically mentioned on the M903 form, then the office has not received those documents from the International Bureau.

## Claim Objections

Claim 69 objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is

Application/Control Number:

10/526,283 Art Unit: 1626

required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. To sylate is not mentioned in claim 35, therefore claim 69 is broadening.

# Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 35-41 and 69-74 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

In the instant case, step e) of the process of claim 35 requires the selective deprotection of a hydroxyl group to prepare the compound of claim 6 for macrolactonization, but does not provide the exact conditions for the selective deprotection. While reagents are provided in dependent claims for the process, there are no working examples to show that the selective deprotection actually done. Even though the level of the person of skill in the art is high, without a clear roadmap of how to perform the selective deprotection, one would need to engage in undue experimentation in order to practice the invention as claimed.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10/526,283 Art Unit: 1626

Claims 35-37, 39-41, and 69-74 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: how the conversion of step c) is accomplished.

### Conclusion

Claims 35-41 and 69-74 are rejected. Claim 69 is objected to. Claims 35-41 and 69-74 are currently free of the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Kosack whose telephone number is (571)-272-5575. The examiner can normally be reached on M-Th 6:30 A.M. until 5:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph M<sup>c</sup>Kane can be reached on (571)-272-0699. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
